

# T 100-200-1

## Environmental Thermometer

### specification

Temperature range	-50°C to +200°C
Resistance at 0°C	100 ohms to EN60751: 2008 class B
Temperature coefficient	0.00385 ( $\alpha_{0.100}$ )
Sheath material	Stainless steel
Sealing	Double sealed against moisture ingress Fully immersable
Recommended measuring current	0.5 or 1 mA

**-50°C to  
+200°C**

### order codes

**T100-200-1D** Supplied with 5 pin DIN plug
